possible playing  
this game I made  
called "getting my  
First Dog"  
tentatively doing it  
in 308 and  
spending the rest  
of my 300 dmax on  
food to incentivize

thanks peter | can ask for... You didn't  
 do you know | i just sent an email | They didn't | let  
 what the heck | to get me | take out a  
 it's tomorrow | you know | studio for you

 on my behalf?!

the injustice of

well thanks for  
 trying

there were  
 bombing attempts?  
 hey Peter team...  
 to get  
 in Golan's lecture  
 series and i want to  
 ask them a  
 question  
 hey Peter team...  
 to get  
 in Golan's lecture  
 series and i want to  
 ask them a  
 question  
 hey Peter team...  
 to get  
 in Golan's lecture  
 series and i want to  
 ask them a  
 question

sure i am going to  
 that one what is it

they do these  
 massive  
 installations

that are interactive  
 and all projection  
 mapped  
 i went to their  
 venues in both  
 paris and tokyo

and my p... i asked golan  
 i have seen he?  
 work in Paris...  
 Tokyo this year,  
 and i am excited  
 for Joel...  
 to go to Golan's  
 York...  
 From what i've  
 seen, it is clear that  
 you build entire  
 worlds. I have read  
 some people...  
 the only reason i  
 wouldn't want to  
 ask this is, i think, if  
 their lecture is  
 like...

There is literally no  
 space in the lecture  
 hall lol

oh damn pizza

eat three

https://www.cheba.com.in

Yeah lolc i definitely getting but like the whole banking attempt and the other... shouting at a bank clerk?

Only thing can think of is protest each other

What did that happen?

Pretty recently I had... necessary? I... about?

basically zuzu

oh thats scary

hey Peter teamlab is Charles... making and... apart to

that are interactive and all projection mapped

I went to their venue in both parts and today

and my professor had with them "eye candy" and was trying to bring off this group

rhizomatiks <https://design.rhizomatiks.com/work/kwelo.html>

Oh

so I like their work and want to ask a challenging question

So for what do you want to ask

well I haven't fully formulated that yet

but I know the direction I want to go

okay here is my question so far

I have seen your work in Paris and Tokyo this year, and I am excited for teamlab to come to New York. From what I've seen, it is clear that you build entire worlds. I have read some people describe them as utopias. My question is: Why are your worlds

wow i guess they are popular

popular

theyre cool but that website i sent from the other team has cooler projects like actually they did a LCD basketball court

Rhizomatiks does look cool

Did you decide on... the team... part?

Yeah lolc i totally... (previous question) actually (just from... previous) lolc... (what's previous) lolc... (what's... "I" lolc...)

And August... i... and... website

Sick

What are u doing?

I'm gonna try to take golan's class too

and suzie's video class

Niceeee

Good luck lol

and maybe paco's class?

Yeahhhhh lolc i collaborate

oho

Well it kind of starts when I was taking her class

is suzie's class impressive? she just was angry

No got lolc oh this was during your class with her or when? not no I think I know how she is

do you know if you can get me a junior studio space in my absence?

I can ask for you

But idk

It's tomorrow you know

I know

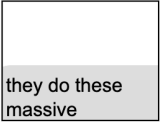

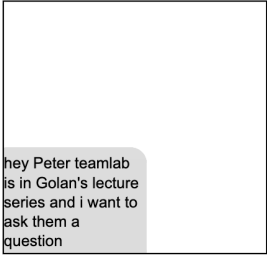

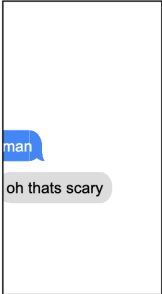

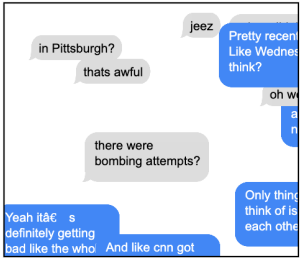

eat three  
I just went to squirrel hill?  
oh damn

Shooting at tree of life synagogue apparently caught the 4 people die

Lol wish I could have had plz go see Memo Aiken for me

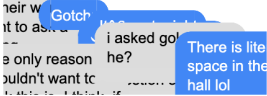

Mark said I will like to eat two slices of pizza in your honor. supposedly I should reach out to you

As far as I know they lifted the campus alert

and my professor here calls them "eye candy" and says they're ripping off this group rhizomatiks <https://design.rhizomatiks.com/works/ote>

Ohh

do you know if you can get me a junior  
You didn't ask my Keni yet right
